VCS LAUNCHES AION: A NEW & IMPROVED INTELLIGENT WORKFORCE MANAGEMENT SOLUTION FOR MUNICIPALITIES

Atlantic City, NJ (November 19, 2019) – With VCS Software priding itself on its continuous growth to always meet the changing needs and demands of the public sector, the Human Capital Management company today, at the New Jersey League of Municipalities Conference, announced the launch of their latest product, AION, a new time & labor management software to replace their original TIMES solution.

AION, Intelligent Workforce Management for Municipalities, is a fully integrated scheduling, time & attendance solution created exclusively to fit the unique needs of today's municipalities. As an upgrade to VCS' former TIMES solution, AION will utilize the latest technology, including artificial intelligence, to automate municipality's payroll processes and minimize their labor costs and overtime expenses.

As an all-inclusive solution, AION will offer system administrators everything they need to manage their municipality all in one platform, including: compliance & rules management, real-time schedules, text & e-mail based notifications, tools to track employee achievements, workforce analytics, electronic timesheets, custom reports, event scheduling, PTO & overtime management, employee monitoring tools, HR & payroll integrations, biometric time clocks, and more.

A 30-day free trial of AION is now available at vcssoftware.com/free-trial for any new prospects interested, while current TIMES users will soon be automatically upgraded to the compatible AION platform.
