VCSOFTWARE.COM

Intelligent Workforce Management for EMS & Fire

Keep Track of Employee Trainings & Certifications

Manage and record all certifications, licenses, and trainings to ensure compliance standards are always met. Monitor and track your employee training and certification requirements as needed. Always know when an employee has acquired new skills or training that makes them eligible for additional working jobs or promotions.

Reduce Compliance Risks

Distribute overtime fairly, calculate payroll rules and ensure that the right employees with the right skill sets are always in the right place at the right time.

Expedite the Payroll Process & Eliminate Errors

FIRES guarantees error-free payroll by automating this process, utilizing real-time electronic timesheets and payroll integration that accurately and instantly report data directly to your payroll provider.
